Life Events Bond Switch and Auto-Rebalance Form

3. Auto-rebalancing service instructions

Complete this section if you want to add or remove the Auto-rebalancing facility.

I authorise KeyInvest to take the following action:

Add the Auto-rebalancing service **Remove the Auto Rebalance**

If you wish to add a new Auto-rebalance instruction, complete the Default Investment Allocation % column in Part 2.

If you do not have a Financial Adviser and you opt to use this feature, auto-rebalancing will maintain your default investment allocation so that your investment strategy remains aligned with your risk profile.

When electing to use auto-rebalancing, you authorise KeyInvest to automatically switch such amounts on the annual rebalance date, from one Investment Option to another Investment Option as is required to maintain your default investment allocation within 1% of the nominated default investment allocation range.

Please note: If you select the annual Auto-rebalance service, your portfolio will be rebalanced annually on your anniversary date, to align with your 'default Investment allocation' nominated in Section 2. Refer to the KeyInvest PDS for our terms and conditions.

Important:

If you are using the KeyInvest Progressive Investing feature at the time of the scheduled annual Auto-rebalancing, your annual Auto-rebalance will not occur.
